Dear Gil,

We are so very pleased to enclose a complimentary copy of *IDEA-STD-1010-B: Acceptability of Electronic Components Distributed in the Open Market*. Please accept this as a token of our appreciation for your significant support of its development. This copy is yours to place in your personal library at home and to share with your family for years to come.

We would not be at this exciting juncture for our Association without your invaluable leadership, contributions, and perseverance as an IDEA Board Member. While serving your own company's leadership role, you have ensured that IDEA projects and programs continue to grow and garner more industry recognition. Because of your support, Revision B has transcended all of our expectations and will be recognized as a comprehensive publication that will positively further impact the industry. We hope that as the leaders and visionaries who drive the success of IDEA, the Board will be very proud of this major industry achievement.

Please accept our thanks again for your dedicated service to IDEA and for your support of this wonderful project. We could not have done it without the dedication of Members like you.

Kind regards,
